

Relief International partners with communities impacted by conflict, climate change, and disaster to save lives, build greater resilience, and promote long-term health and wellbeing.

Partnerships for Greater Resilience

CRISIS

People living in fragile settings face complex, interconnected, and deep-rooted crises, increasingly accelerated by climate change and conflict

RESPONSE

Working in partnership with local actors on humanitarian response, we focus first on critical health needs

RESILIENCE

As communities recover, a combined focus on health and wellbeing helps reweave the social fabric, a network essential for preparedness and ultimately greater resilience

What We Do

Mobile and outreach approaches extend access and protection to remote areas

Water, sanitation, and hygiene activities meet basic and essential needs

Community education and engagement encourages social cohesion and behavior change

Learning to earning pathways integrate education and livelihoods programs

Core Capacities

SAFE

We ensure that affected communities have access to safe and inclusive programming with an emphasis on protection.

TRULY LOCAL

We work alongside communities to build resilience. We do this through investments in local staff capacity and with leadership from local partners, organizations and institutions.

GOING THE DISTANCE

We go above and beyond to ensure access to services in the hardest to reach areas amidst crisis, displacement and systems failure.

CONFLICT SENSITIVE

We support context appropriate and ethical programming in conflict zones and challenging political environments. Our work is underpinned by community acceptance and dynamic conflict analysis.

CLIMATE SMART

We develop local capacity to prepare for and respond to climate shocks, with green, digital, and off grid solutions.

EVIDENCE BASED

We invest in learning and analysis. Sound evidence informs our actions, advocacy, and drives program quality, adaptation, and innovation.
